* Please note that **OEC Company** is the **Demo Company**. All of you have access to this company. Please explore the demo company in order to understand how the company is configured to take care of accounting, sales and purchasing. Later, you will have to configure empty company that is assigned to you (Corp. 01 – 22) so that you are (at least) able to conduct sales and purchasing operations. You will work with demo company first and then with the empty company.
